ROOM 409, BLOCK K, DEPARTMENT OF PAEDIATRICS AND ADOLESCENT MEDICINE,
QUEEN MARY HOSPITAL,
102 POKFULAM ROAD, HONG KONG SAR

Dinner Lecture: Practical Management Issues for MPSVI patients

(Date: 22/09/2009)

Dear COS,

It is our pleasure to announce that our society has invited Dr. Paul Harmatz, Co-Director, from Children's Hospital Oakland/University of California, San Francisco, to give a dinner lecture on 22/09/2009.

Dr. Paul Harmatz has a broad range of major research interests with special attention on therapy for Lysosomal Storage Disease (LSD). It is well known that Mucopolysaccharidosis (MPS) is one form of LSD with multi-systemic involvement. Hence, it would be a good opportunity to meet the expert which your department and colleagues would find it useful.

Please see the attached poster for details and method of registration.

Yours sincerely,

Dr. David Chan Kam Hung

Deputy Secretary

Hong Kong Society of Inborn Errors of Metabolism (HKSIEM)

For Dr. Huen Kwai Fun (President)

Date: 25, August, 2009
